

COOLING SYSTEM

90° MOULDED COOLANT HOSE

Not all cooling systems are the same. The need for coolant hose options extends well beyond the vehicle specific applications hoses Gates are well known for. To create an easily identifiable range of coolant hoses Gates has introduced the 90° Moulded Coolant Hose program and brings a complete universal 90° range to the automotive aftermarket.

All popular I.D. hoses are offered in two lengths; the shorter length hose provides a solution for a known or tight fitting situation, whilst the longer length hose is able to cover more applications and can be easily trimmed to make an exact fit.

To aid the precise cutting of the hose all Gates 90° Moulded Coolant Hoses come with uniform increments marked along the length of each arm from the centre of the 90° bend, to assist with accurate cutting of the hose if required.

EC/R™
ELECTROCHEMICAL
RESISTANT

90° MOULDED COOLANT HOSE

Listings in size order make for easy selection and identification for any automotive or custom application.

- Gates 90° Moulded Coolant Hose range has been extended and conveniently re-numbered for ease of identification
- Range contains all popular selling 90° Moulded Coolant Hose sizes
- Engineered to resist electrochemical degradation – the leading cause of hose failure
- SAE 20R4 and 20R3 Type EC Class D-1 and D-2 specifications
- Temperature rating: -40°C to +135°C

CAUTION: Do not use for fuel or oil transfer applications

GATES PART NUMBER	I.D.	ARM 1 CENTRELINE LENGTH (mm)	ARM 2 CENTRELINE LENGTH (mm)
