

DRIVEN BY POSSIBILITY™

GATES MICRO-V[®] STRETCH FIT™ BELTS

Gates worked closely with car manufacturers globally to develop and release the very first self-tensioning belt designed exclusively for Stretch Fit applications. Gates Stretch Fit belts are engineered to fit and perform perfectly on these unique drive systems and are the ideal solution for the Australian and New Zealand aftermarkets.

Stretch Fit drive systems demand highly engineered solutions. Gates Micro-V Stretch Fit belts, with exclusive self-tensioning technology, were the first aftermarket belts engineered to fit like a glove and perform properly on these unique stretch fit drive systems. Gates continues to add coverage to this growing market segment.

FEATURES + BENEFITS

- Gates engineered tensile cord has the needed combination of strength and flexibility using advanced polyamide tensile cord
- Patented highly engineered EPDM belt ribs are extremely resistant to contamination, wear and pilling
- Specially formulated adhesive literally locks on to the cord - allowing the cord to elongate and stretch, but never lose tension
- Stretch Fit belts are single use only and must be replaced if removed

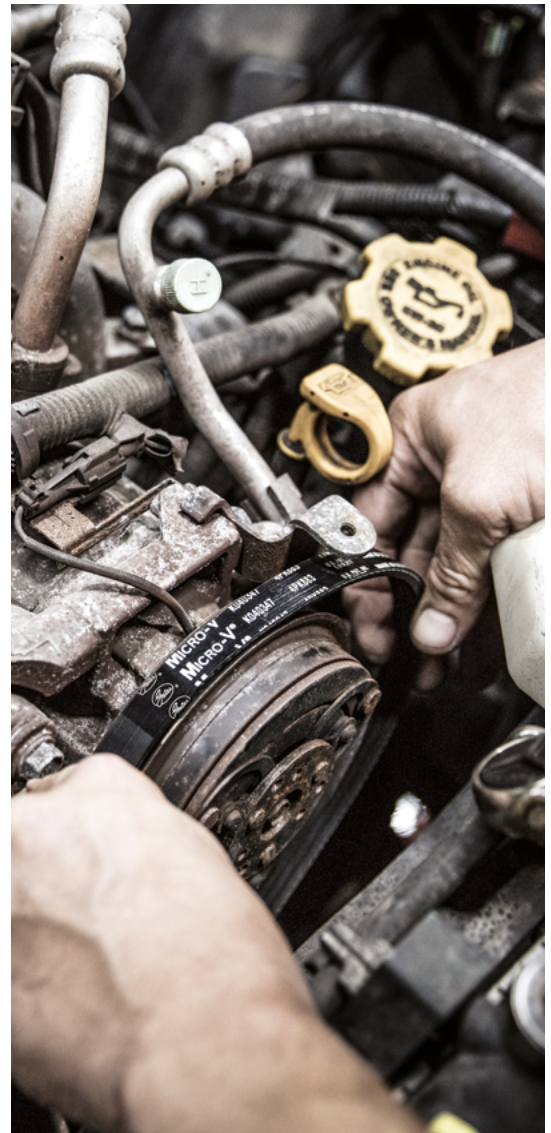

GATES STRETCH FIT TOOLS

Gates professional Stretch Fit installation tools are application specific.

Some of Gates tools are universal. Currently, our tools cover more than 80% of current Stretch Fit applications. Gates professional tools are robust and designed to make installation quick and easy for the fitter.

GATES PROFESSIONAL TOOLS ARE SUPERIOR IN DESIGN

- Safer - The professional Stretch Fit tools are application specific and prevent the risk of damaging the belt on installation
- Easy to use – Gates can provide step by step installation instructions to ensure the fitter has the correct information to install the belt accurately the first time
- Re-useable – Gates professional tools are an investment, they are suitable for use over and over

Stretch Fit installation tool part numbers SFT001 and SFT003 are general purpose tools that cover over 80% of the Stretch Fit applications globally. There are also Stretch Fit installation tools specifically designed for certain make and models these include SFT002 suitable for Ford Fiesta/Focus, SFT004 suitable for BMW 530d and 91031 suitable for Subaru Forester, Impreza and Outback applications.
