# COMPLETE™ SERPENTINE KITS

## BE SYSTEM SMART WITH ACCESSORY BELT DRIVE RESTORATION

To ensure proper ABDS repair, it's not enough to simply replace the serpentine belt. All parts in a system are engineered to work in concert and wear at the same rate. A flawless operation of a car's accessory belt drive system depends not only on the belt, but also on related components operating as a system. Failure of any individual component can lead to system breakdown and costly repairs. Be System Smart and complete a full repair by replacing all components at the same time using a Gates® Complete™ Serpentine Kit.

Belts and tensioners were designed as a system and should be replaced together. Belt tension is critical for the correct operation of the accessory belt drive system. Problems caused by belt slip and loss of tension:

- Fan: Reduced cooling efficiency
- Bearing: Increased heat resulting in a loss of grease and premature failure
- Alternator: Poor charging performance
- A/C: Reduced efficiency
- Pulleys: Increased wear
- Belt: Shortened service life and noise
- Error codes: False codes/display of check engine light

#### KITS INCLUDE:

- Gates® Micro-V® Serpentine Belt(s)
- Related DriveAlign™ Tensioner(s)
- Idler Pulley(s) included as required, per system

DRIVEN BY POSSIBILITY™

# GATES® COMPLETE™ SERPENTINE KITS

Components of the Gates® Complete™ Serpentine Kit are sealed and packed securely to maintain outstanding quality and condition during shipping

## LIFETIME MANUFACTURER WARRANTY

Gates® Complete™ Serpentine Kits come with lifetime warranty coverage on PARTS AND LABOUR when the kit is installed by a registered shop.\* Providing the Gates® For Life peace of mind for technicians, service advisers, shop owners and customers means results, returns and rewards worth a lifetime.

### GATES AUSTRALIA PTY LTD

1-15 Hydrive Close, Dandenong South, Victoria, 3175  
PH: +61 3 9797 9666 FAX: +61 3 9797 9600

## WHY KITS?

NOTHING BEATS COMPLETE. GATES® COMPLETE™ SERPENTINE KITS OFFER:

- Reduced comebacks and warranty returns
- Maximised customer satisfaction
- All necessary OE-quality parts for a complete system restoration
- Simple ordering—no more sourcing parts separately

## BUSINESS GROWTH TIPS FOR THE SERPENTINE SYSTEM

### KNOW THE INTERVALS

The best way to prevent costly system failure is to begin replacing worn components at **150,000 KILOMETERS**, or as advised by the manufacturer.

### REMOVE IT, REPLACE IT

The best time to do a kit replacement is anytime you are replacing a belt. Think critical repairs like the alternator, A/C compressor, water pump or power steering pumps: all connected by the belt.
