

TIMING BELT SET

Introducing the NEW Gates Timing Belt Set program:

- Vehicle specific Timing Belt packs.
- All relevant timing belts for each application in one convenient box.
- From the global leader in belt technology.

So simple, yet so important.

Another innovative solution, only available from Gates.

A large number of vehicles on our roads require more than one timing belt. Most of these vehicles have a balance shaft drive, and the rest require an injector pump belt (diesel engines) or a separate camshaft belt from the crankshaft.

Many examples of this exist on our roads today in engine derivatives from Mitsubishi, Honda, Kia, Hyundai, Volkswagen, Ford and Great Wall.

Since it is critical for ALL timing belts to be replaced at the same time, it makes perfect sense to offer all the related belts in convenient vehicle specific packs.
