GATES® INNOVATION:

WE MAKE IT OUR BUSINESS TO KNOW YOUR BUSINESS

Downtime is the enemy for over-the-road fleet operations. Install Gates® FleetRunner™ Heavy-Duty Serpentine Kits and have complete confidence in a complete repair. One-number ordering makes it easy to get all the components you need to keep your fleet running down the highway.

SYSTEM COMPONENTS ARE DESIGNED TO WORK AND WEAR TOGETHER

It's important to use a systems approach when you diagnose and service the serpentine belt drive. When a high kilometer belt is replaced, the tensioner has likely met its life cycle as well. Replacing the tensioner is critical to avoiding breakdowns.

Fleet managers trust Gates® for the highest quality parts, comprehensive training, and superior engineering support. Contact your Gates® representative and learn how you can benefit from one-number, Gates® FleetRunner™ Heavy-Duty Serpentine Kits.

SUPERIOR TECHNOLOGY

PROVEN FLEETRANNER™ PERFORMANCE IN ONE EASY-TO-ORDER KIT

- FleetRunner™ belts are engineered to handle high kilometer, high idle times and high temperatures in abusive environments
- FleetRunner™ belts last 34% longer than OE, and 4 times longer than any other aftermarket belts
- Tensioner round spring design and patented damping mechanism extends tensioner life - up to 3 times longer than any other aftermarket tensioner

GATES® SOLUTIONS: BETTER THAN OE

The Gates® re-design of the Detroit Diesel Series engines includes a more-responsive spring, double-row bearings, patented damping system and seal, and eliminates the strut and core charge. Just one example of Gates' superior engineering design.
